EDUCATION

Cornell University, Cornell Ann S. Bowers College of Computing and Info. Science <i>Master of Professional Studies (Data Science & Applied Statistics) Recipient of Capstone Leadership Award</i> • Selected Coursework: Modern Regression Models, Time Series Data Analysis, Machine Learning, Deep Learning, Artificial Intelligence, Big Data Management, Rating Nations: Economic Indicators, Managerial Negotiations	Ithaca, NY 2025 - 2026
Narsee Monjee Institute of Management Studies (NMIMS) <i>B.Sc. (Applied Statistics & Analytics) CGPA: 3.82/4.0</i> • Selected Coursework: Probability, Hypothesis Testing, Stochastic Processes, Applied Economics, SQL Database Management.	Mumbai, India 2022 – 2025

PROFESSIONAL EXPERIENCE

Course Assistant – Introduction to Python for Business (NBA 6215) <i>Cornell University (SC Johnson College of Business)</i> • Partnered with lead faculty to deliver Python programming instruction, serving as a primary academic resource for business students during live lecture sessions. • Managed weekly student office hours, translating complex technical concepts into accessible business frameworks and troubleshooting specific coding challenges. • Conducted the grading and evaluation of student projects, maintaining high standards of academic rigour while providing consistent peer mentorship.	Ithaca, NY January 2026 – Present
Project Intern, Market Research Department <i>Emcure Pharmaceuticals</i> • Orchestrated a Six Sigma product launch analysis across 14 therapeutic categories, leading a cross-functional team through the full project lifecycle. • Collaborated to build automated data workflows that reduced processing time by 70%, enabling the broader department to run future analyses with significantly enhanced operational efficiency. • Engineered predictive sales models and market trend analyses that informed strategic decisions for 1,900+ product subgroups, linking prescription patterns to direct revenue outcomes.	Mumbai, India March 2025 – May 2025
Project Intern, Data Science and Analytics Group <i>ICICI Bank, BKC</i> • Executed end-to-end opportunity analysis for NRI ecosystem growth (geographic business expansion), combining predictive modelling with multi-source demographic data scraping techniques. • Engineered regression models ($R^2 = 0.87$) mapping affluence patterns and market dependencies across NRI segments to back up strategic geographic decisions with concrete hard evidence.	Mumbai, India May 2024 – June 2024
Summer Intern, Internal Audit Department <i>Ernst & Young LLP</i> • Executed an insurance claims analytics initiative through Python-driven exploratory data analysis with visualization techniques and multivariate regression model development. • Established foundational insights into claims adjudication processes through systematic investigation of variable interdependencies within historical accident data.	Mumbai, India June 2023 – July 2023

LEADERSHIP & ACADEMIC PROJECTS

President, B.Sc. Placement Cell Founding Member, Research Cell & Music Club (NMIMS)	July 2024 – July 2025
Capstone Project: Predictive Physiological Modeling (Cornell University) • Engineered a LightGBM regression model utilizing strict GroupKFold cross-validation to forecast offshore sailor fatigue 30 minutes in advance, achieving a highly constrained predictive fidelity of 0.34 RMSE. • Translated statistical outputs into an actionable 3.7 ln(rmssd) “Soft Margin” dashboard, establishing an 85%+ reliable early-warning buffer to prevent catastrophic physiological collapse. • Leveraged SHAP value analysis to present algorithmic architecture to industry sponsors, directly securing a post-graduate consulting contract to further develop the pipeline for commercial deployment.	May 2026
Published Research (SPRINGER Proceedings) • Authored a socio-technical analysis examining 3 major Indian financial frauds (1992-2018), employing the Fraud Diamond Model to understand behavioural drivers across INR 50,000+ crore scam cases. • Accepted for publication in <i>SPRINGER Proceedings in Business and Economics</i> . DOI: 10.1007/978-981-97-7030-49	February 2024

TECHNICAL SKILLS

Programming & Analysis: Python, R, SQL, SAS, MATLAB, SPSS
Tools & Visualization: Tableau, Google Colaboratory, Microsoft Office Suite (Excel, PowerPoint, Word), cursor, Claude, Gemini
Methodologies: Predictive Modelling, Time Series Forecasting, Regression Analysis, A/B Testing, Machine Learning

INTERESTS & EXTRACURRICULARS

Volunteering: Teach For India (November 2024 - June 2025), Rotaract Club of Bombay West (October 2024 - June 2025).
Martial Arts: 3rd Degree Black Belt (Kyokushinkai Karate), Rank of Laashi Red Sash (Northern Shaolin Kung-Fu), Rank of Shinobi (Ninjutsu), Master in Hath Yoga, Chen Style Tai Chi.
Music & Debate: Grade 8 Piano (Distinction, Trinity College London), Tabla (Praveshika Purna), Avid MUNner (Multiple Awards).
